MEMORANDUM FOR: General Carter

SUBJECT : Mission and Functions of DD/R

25X1 1. [] of my staff has, during Mr. Kirkpatrick's absence, attempted to coordinate a notice on the mission and functions of DD/R (attached). He has reached an impasse. As I understand it, DD/P at the working level will concur in this notice. The Acting DD/R, however, does not feel that he can concur in the notice since he has not yet been told by the DDCI just what the DD/R responsibilities are to be. He does not think that this notice is clear in this respect and, pending receipt of such instructions from the DDCI, does not desire to submit a counterproposal.

X1 2. Insofar as DD/S functions are concerned, in principle we would be happy to turn over our [] ELINT responsibilities if this is desired. However, I have grave reservations as to the DD/R ability to staff a big and important project like [] without additional, similar activities to which personnel can be rotated. I also would caution that the Office of Communications has no clearly delineated ELINT organization to be transferred intact to DD/R, and there cannot be a reduction in the Communications Engineering Staff equivalent to the increase which will probably be necessary in DD/R. It would therefore appear that this will unavoidably call for either increased budget and personnel ceiling or reductions in other parts of the Agency in order to accommodate the requirement.

25X1

25X1 3. Since you and Mr. Kirkpatrick have been working on this, I had not attempted to inject myself into the discussions; and I have considered [] to be acting as Mr. Kirkpatrick's agent. He is, however, available to brief you; and I would, of course, be glad to discuss it if you think I could be of any assistance.

[]

25X1
